Student Dashboard Management System

1. Problem Statement

Develop a Student Dashboard Management System using HTML5 and CSS3 to display and manage important student academic information in one place. The dashboard should provide student details, semester results, attendance percentages, subject information, examination schedules, and important announcements. It should use tables, progress bars, summary cards, and a sidebar layout to make the information easy to access, understand, and navigate.

2. Objective

- To design a user-friendly student dashboard.
- To display student personal and academic details.
- To show semester-wise examination results.
- To represent attendance percentages using progress bars.
- To provide subject information in table format.
- To display upcoming examination schedules.
- To show important college announcements and notifications.
- To create an attractive and organized interface using HTML5 and CSS3.

3. Key Features

1. Student Details: Displays student name, roll number, department, semester, and academic year.

2. Semester Results: Shows semester-wise marks, SGPA, and examination results using tables.

3. Attendance Percentage: Displays subject-wise attendance using visual progress bars.

4. Subject Information: Provides subject names, subject codes, and credits.

5. Examination Schedule: Displays examination dates, subjects, and examination timings.

6. Announcements: Shows important college notices, assignment deadlines, and examination updates.

7. Dashboard Cards: Displays CGPA, total subjects, attendance percentage, and backlogs.

8. Sidebar Navigation: Provides easy navigation between different dashboard sections.

9. Responsive Design: Adjusts the dashboard layout for different screen sizes.

10. User-Friendly Interface: Uses attractive colours, tables, cards, and organized layouts for better understanding.

Student Dashboard

Welcome, MACHARLA MADHU LATHA 👋

Student Information

Name: MACHARLA MADHU LATHA
Roll Number: 26001220
Department: Computer Science
Semester: 1st Semester
Academic Year: 2026-2030

Current CGPA	Attendance	Total Subjects	Backlogs
8.6	92%	6	0

Semester Results

Semester	SGPA	Result
Semester 1	8.2	Pass
Semester 2	8.6	Pass
Semester 3	8.8	Ongoing

Attendance Details

Mathematics - 95%

Programming - 90%

Physics - 85%

English - 92%

Subject Information

Subject Code	Subject Name	Credits
CS301	Data Structures	4
CS302	Database Management	4
MA301	Mathematics	3
CS303	Python Programming	4

Examination Schedule

Subject	Date	Time
